INVITATION FOR BIDS No. 10-050 LANDFILL COVER SOIL Addendum No. 1

August 10, 2009

Ladies and Gentlemen:

The purpose of this addendum is to provide clarification(s) to all prospective bidders.

REPLACE Page DS-2 with page DS-2 Revised 8/10/09 (see attachment). Paragraph 4.1 was changed.

QUESTION 1 Is the laboratory analysis report and verifying statement required with the bid or is it only required of the successful bidder?

ANSWER 1 The laboratory analysis report and verifying statement would be required of the successful bidder after bid opening, but before award is made.

Should you have any additional questions regarding this project, please do not hesitate to contact me at sgcarnucci@harfordcountymd.gov.

Sincerely,

Samuel G. Carnucci, Jr.
Procurement Agent

This document is available in alternative format upon request.

- 2.5 Bidders must indicate in their bids the street address or addresses of the sources of material from which they will supply cover soil.
- 2.6 Bidders shall make the sources of material available for inspection by County personnel prior to and after award of bids.
- 3. Unacceptable Material
 - 3.1 Contractor shall ensure that each load of cover soil delivered to HWDC meets the specifications identified herein.
 - 3.2 Incoming loads will be inspected by County personnel. If, in the opinion of County personnel, a load contains unacceptable material it shall be rejected and Contractor will be required to remove the material from that load. No payment will be made for that load.
 - 3.3 If small amounts of unacceptable material are delivered, the County may, at its sole discretion, segregate the material to be reloaded and returned to the Contractor. The weight of this material will be deducted from the payable quantity of cover soil delivered.
- 4. Quality Control
 - 4.1 The Cover Soil provided by Supplier shall not contain asbestos in an amount greater than the standards established under current OSHA and Mining Safety and Health Administration (MSHA) for exposure and emission limits. For all cover soil for which supplier has submitted a bid, supplier shall attach a laboratory analysis report which follows the protocols set forth in Section 763.87(a) of Chapter 40 of the Code of Federal Regulations and is performed by a laboratory that is accredited by the United States Department of Commerce, National Institute of Standards and Technology, National Voluntary Laboratory Accreditation Program, as described in the Federal Register (52 F.R. 33470, September 3, 1987). The laboratory shall provide a statement verifying: a bulk sample of the cover soil was analyzed; the sampling protocol utilized; a statement verifying that the person who performed the analysis was properly trained in the use of the methodology which meets the requirements of Section 763.87(a); the date when the bulk sample was taken; and the date when the analysis was performed.
